

2026 Summer Season Occupancy Report as of June 18, 2026

Based on an average of 351 Rooms/Vacation Homes

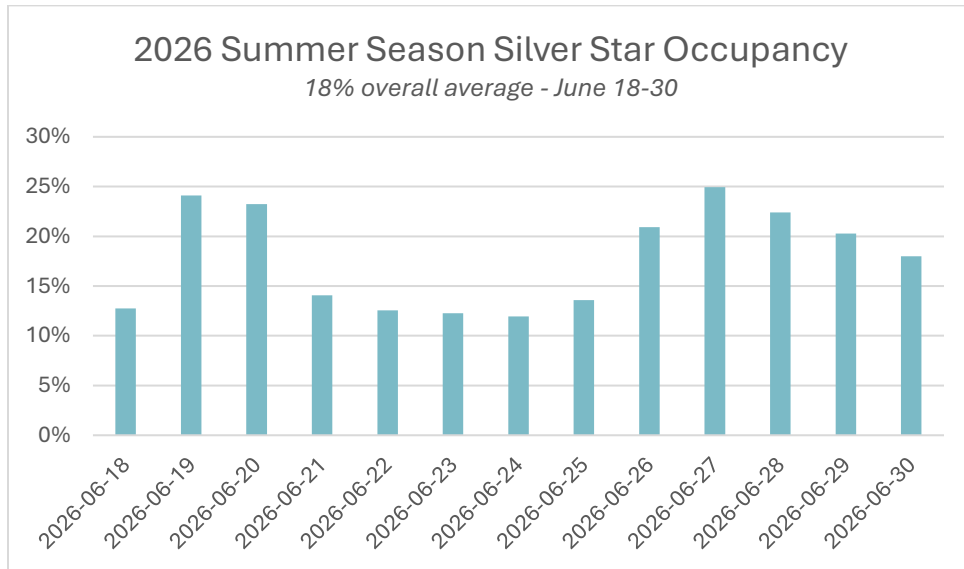

About this report: This occupancy report provides a snapshot of accommodation performance across Silver Star, compiled from data submitted by our accommodation partners.

The 2026 summer season is tracking at 18.0% occupancy from July 1 through September 20, 2026. July is the strongest month at 25%, up 5.3 percentage points from last year, driven by strong demand in the first half of the month around the July long weekend. The season's peak booking sits at 47% on July 9. Occupancy eases through the latter half of the season, with August at 15% and early September (1-20) at 11%, though both remain well ahead of 2025 (15% and 8%). Overall, the trend of year-over-year occupancy growth continues, with the strongest gains concentrated in the peak weeks of the season.

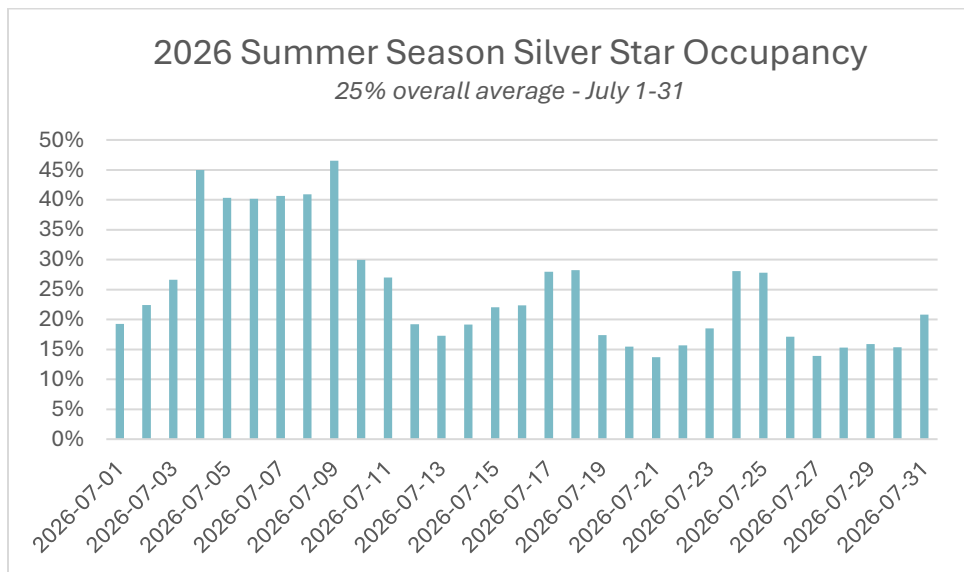

Daily occupancy across the full summer season averages 18.0% from June 18 – September 20. Demand is front loaded, peaking at 47% on July 9 and then eases steadily through out the summer.

DESTINATION
SILVER STAR

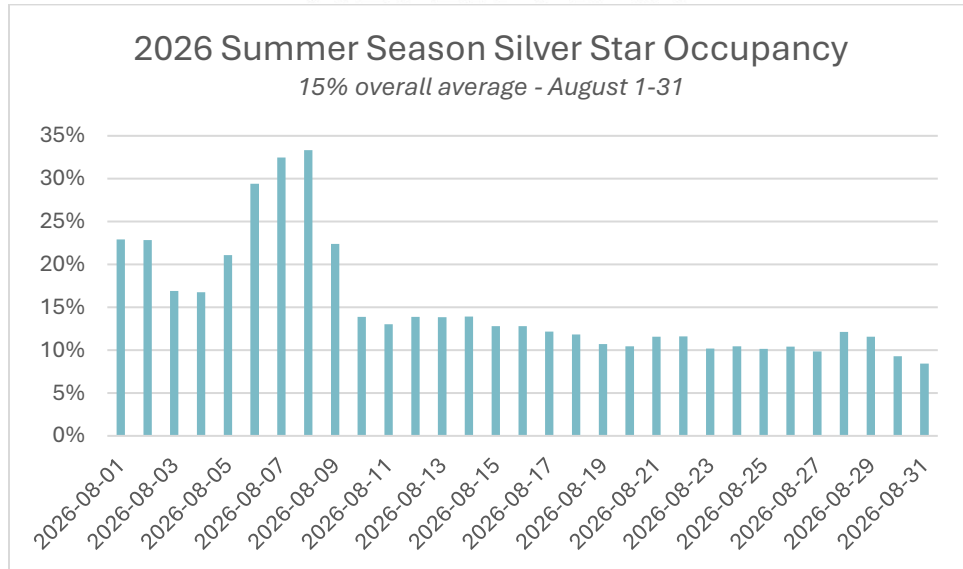

June sits at 18% occupancy with the strongest demand seen over the weekends.

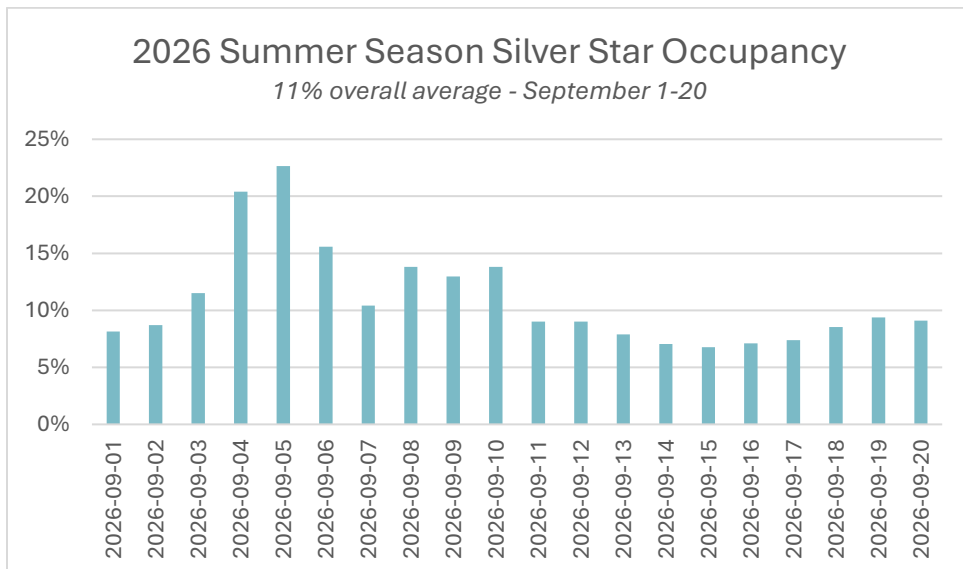

July occupancy is highest in the weekend following Canada Day.

DESTINATION SILVER STAR

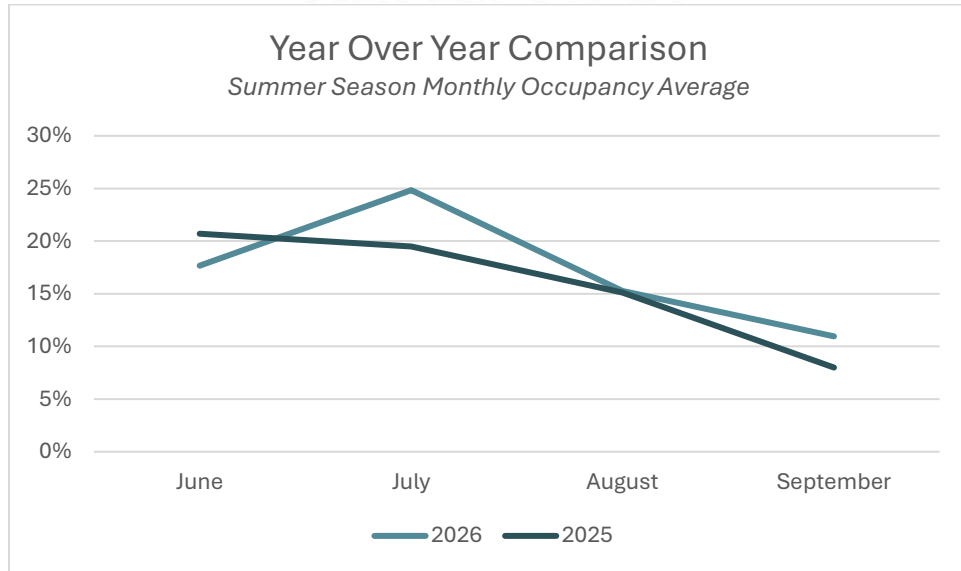

August peaks at 32% occupancy on August 8 and shows the strongest books in the first part of the month. This corresponds to the August long weekend and Crankworx

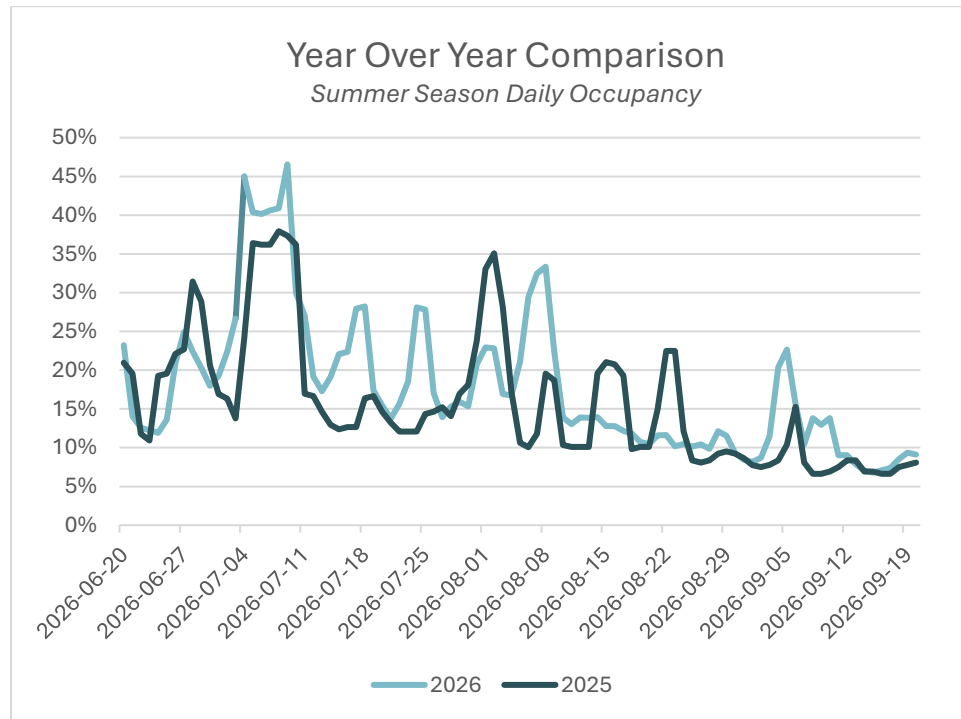

September averages 11% and is the softest occupancy of the season. This is consistent with the end of season slowdown.

DESTINATION
SILVER STAR
